“Investing in Knowledge for a future that truly grows”

Welcome to Frank Public School

The Frank Public School has excellent infrastructure, updated equipment, has sports facilities, highly skilled & qualified academicians and also a highly qualified, dynamic and go-getter principal.

Admission

This school provides quality education from Montessori to X and follows the CBSE syllabus. Generally admissions are kept open to all eligible candidates. However, parents and guardians are encouraged to enroll their wards no later than April for the academic year beginning in June.

Vision

“Children must be taught how to think and not what to think”

Our vision is to provide child-centred and activity centred education with a view to develop a optimum level. Balanced personality of the child thereby preparing each child to take his / her rightful place as a well disciplined child.

Mission

“To motivate weak, to address average and challenge the gifted”

We achieve mission through experiential, learning & real life applications.

The objective of the school is to provide a wholesome, well rounded education with proper stress on extra curricular activities to mould our children into caring and responsible achievers of modern India.

About Us

Frank Educational Institution is permanently recognized by the Government of Karnataka. The School is getting 100% result in 7th Standard and 10th Standard, affiliated to CBSE, New Delhi. Frank Public School is managed by Naveen Vidya Mandir Trust. The Trust is formed by the social workers, educationalists and the philanthropists. It is constituted for educating the pupils of the locality of south Bangalore.

This school was established in 1976 and is mainly devoted for the education. It has firm foundation of the moral, spiritual, educational and cultural values. The ambition of the Trust is to see that the children will become disciplined, dutiful and patriotic.

Frank Educational Institution is situated in one acre at 6th Phase, J.P. Nagar Bangalore. There are 44 class rooms, each room measuring 18'x24' as per the rule of the Department of Education of Karnataka with adequate natural lighting and ventilation.

Frank Educational Institution on the present site have a full-fledged permanent building with all the state of the art facilities. The school is equipped with well-qualified staff. Many of our Teachers have high academic distinctions. Services of a few supernumerary professors have also been retained to guide academic policies and teaching strategies. The existing library and laboratories are adequate enough. The School has montessori overhead LED projectors, televisions, digital board and such other teaching aids. Arrangements

“Education is the key to Unlock freedom”

VISION

We aspire to craft socially conscious and responsible individuals who like to serve the society. Frank Public School aims to be an institution that empowers each child with a sound foundation of knowledge and life skills. We create a stimulating environment where children learn when they want to and not when they have to. Assisting them in recognizing and achieving their fullest potential, the school wishes to help them in the best possible way.

Our mission is to create the leaders of tomorrow. With a backup of CBSE curriculum Frank Public school is dedicated to moral, spiritual and ethical development of the child. We aim to edify them about the worth of honesty, dignity and justice. We are determined to create an atmosphere where values are considered an achievement.

CODE OF CONDUCT:

We at Frank School believe that school is a place for teaching and learning, where students feel safe, secure and supported. To provide this supportive learning environment, school communities must foster respect among all members of the school community. Our school code of conduct is based on the belief that there are values fundamental to the well being of both the individual and society and that we are all responsible for the choices we make. It encourages students to recognize and respect diversity and individual differences. In the process, we want students to develop self discipline, which can be considered as a core of any person's activity.

We expect our students to maintain and encourage high standards of personal ethics and values. conduct that includes honesty, discipline, integrity, respect and consideration, ethics and values.

“Frank School – “ Where Real world skills, become Real world success”

have been made for procuring Audio visuals from the British Library, Bangalore. The school identifies the best students every year in each class and recognise them with prizes and certificates. Some departments have also instituted merit prizes in their respective subjects. Debates, Sports, Cultural and Literary activities are given priority. Seminars, guest lectures and industrial visits are being held periodically. Each department has an association to promote academic and cultural activities.

Our Facilities

Facilities at Frank Public School

We offer the best available facilities to our children in pursuit of giving them good knowledge. We strive to ensure that the children learn the best way and we put our efforts in fulfilling that.

LABORATORIES

Dedicated Physics, Chemistry, Computer Science, Biology, Laboratories

Computer Science, Physics, Chemistry and Biology labs with qualified laboratory staff aid students with their experiments. We have state of the art facilities, and our laboratories are enviable. The students are exposed to the world of knowledge through the vast number of books in our libraries.

“Bridging classroom concepts to Life’s challenges”

Computer Education

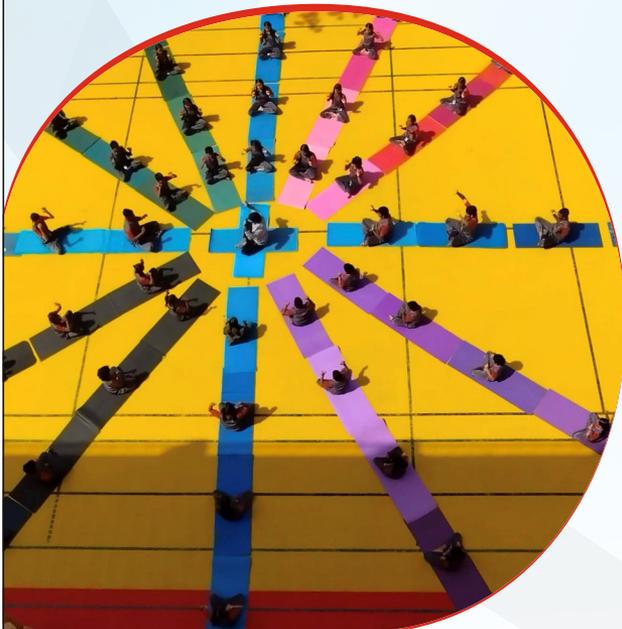

Computer Education initiates our young students into the captivating world of computing, and introduces them to its wide and ever increasing range of applications. Computer Education is introduced in standard 1 in our school. We have developed a unique curriculum accepting valuable inputs from various international agencies involved in the field of computer education programme for schools.

PHONETICS LAB

A unique Phonetics lab at the first grade ensures that children are always a step ahead in language as well. Phonetics, an interactive program in which the computer interacts with the kids through questions, comments, etc, thus enticing the children to speak. The program then detects flaws in the child's pronunciation of words during the course of the dialogue and prompts the child to correct the usage immediately, without which it won't respond to the child's innate curious questions. Thus the kids learn the science of accurate pronunciation effortlessly even when their counterparts are still grappling over mastery in speech.

SPORTS

A healthy body promotes a healthy mind thus our school encourages the children to be healthy, physically and mentally. Sports provide an excellent opportunity for our students to stay healthy, develop good interpersonal skills and concentration, and foster camaraderie, among other things.

“Frank school - Upskilling for a world that’s still changing”.

AUDIO VISUAL ROOMS

The world is changing faster than ever before. Students around the world today are exposed to new learning methods so powerful in their impact, they may well transform our entire concept of education. Therefore, it has now become more critical than ever before to provide our children an opportunity to become globally competitive. We have a unique Audio-Visual education enhancement software that has been designed by prominent Educationalists and Information Technology experts to Stimulate and enrich the teaching/ learning process and encourage the students to observe, absorb, retain and recall their lessons effectively. This is an effective teaching tool with a comprehensive structure, exhaustive content base and lucid presentation style, covering all classes and subjects, based on the Indian school syllabus. It is also constantly upgraded and improved based on the qualitative feedback from teachers and students.

SCIENCE LABORATORIES

I hear, I forget.
I see, I remember;
I do, I understand.

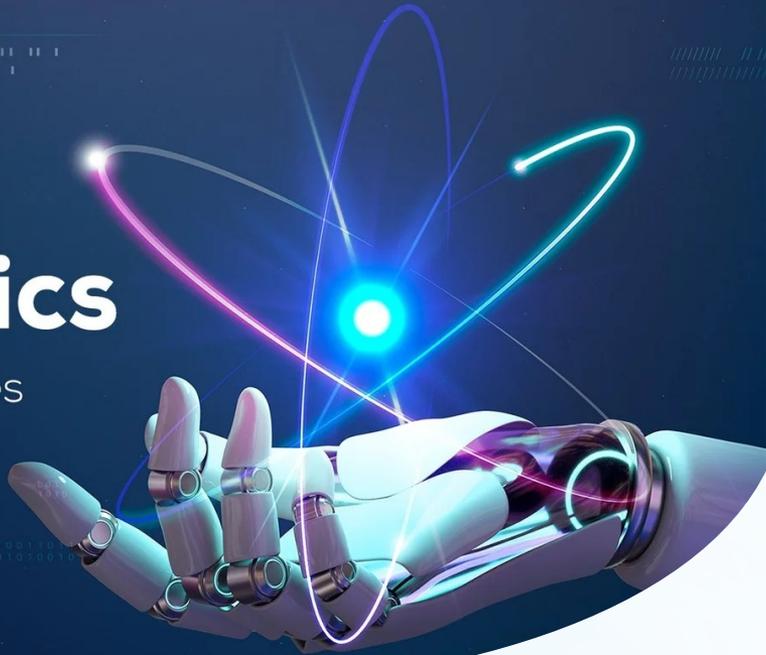

True to this ancient saying, we emphasize hands-on practical work, as far as possible, to help our students understand the theories of science. Lab work helps bring forth the child's innate curiosity and channels it into a systematic exploration of things unknown. At the middle-school and high-school levels we have well equipped laboratories and modern scientific teaching aids. Our laboratories attest to our commitment to provide high quality education.

“Education that’s felt, not just Learned”

Robotics

Rise of Machines
with a mind

“Learning through doing”

MATHEMATICS LABORATORY

We have embarked on an ambitious project to equip our schools with a Maths Lab. A recent concept, Maths Labs can help tremendously in explaining abstract mathematical principles through do-it-yourself exercises, models and special teaching aids. This will go a long way in making the study of Maths, dreaded by many, more learner-friendly.

TRANSPORTATION

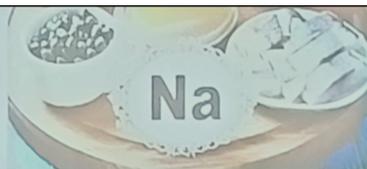

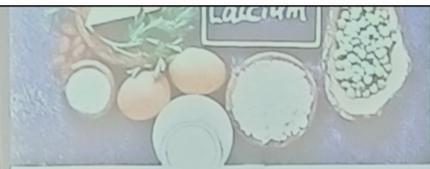

Transportation facilities are available along selected routes with GPS enabled video surveillance system

LIBRARY

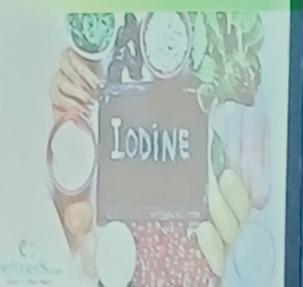

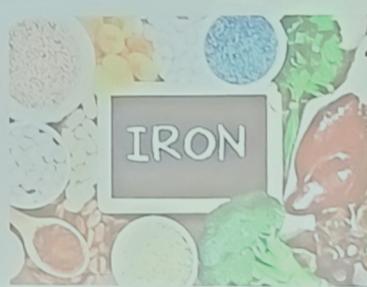

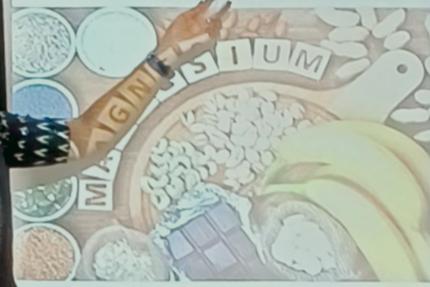

Our library is well stocked with books. Care is also taken to furnish the libraries with good and rare reference books. We encourage the students to develop a wide-reading habit, so they will be well informed and develop a good command of the English language.

“Creative minds shaping future”

Frank Public School

“Experience, Apply, Achieve”

ICT BOARD

One of the key benefits of ICT boards at **FRANK PUBLIC SCHOOL** that they support multi-sensory learning, catering to different learning styles-visual, auditory, and kinesthetic. Students actively participate in lessons by solving problems, answering quizzes, and engaging in discussions, making learning more student-centered. Additionally, teachers can access vast online resources, digital textbooks, and real-time content to enhance classroom teaching.

LEARNOMETER TEST

We use learnometer to measure a students critical thinking and problem solving skills rather than just memorisation, it assess core thinking skills essential for higher level education, including conceptual understanding and communication, the data provides teachers, parents and school management with insights into individual students strengths, weaknesses and over all academic strategy.

OUR CURRICULAM

Curriculum At Frank Public School

The school environment is made stress free. Co-curricular activities are part and parcel of the curriculum. We follow the Continuous and Comprehensive Evaluation prescribed by the CBSE. All the staff members are given in-service training.

Xseed is the futuristic approach to enlighten all the young minds. It caters to the needs of all kinds of learners i.e. visual, auditory or kinesthetic learners. Xseed abides by the NEP rules and is very similar to NCERT. The content is designed in a very learner-centered perspective. The books and the videos make learning easy and help students recapitulate the concepts and develop their confidence. Xseed not only enhances students skills such as reading, writing, listening, speaking and observation but it also motivates the students. It emphasizes on their social interaction and helps them develop rational approach in life. It aims at improving the student's cognitive skills, problem solving skills, logical reasoning, motor skills and concentration.

SCHEME OF STUDIES

The students are all taught in English and follow the CBSE syllabus. Through the special emphasis placed on teaching English, the medium that opens doors to the vast frontiers of science and technology. The students are prepared to meet the challenges of the globally competitive environment. The students are encouraged to develop a responsible attitude towards themselves, their school and society at large. Sanskrit chants, bhajans and yoga are integral parts of the curriculum.

We have a well established communication systems with parents. Parents are regularly intimated about the activities going on in the school through SMS and Publications.

“Igniting Minds, Illuminating Futures”

Co Curricular Activities – Frank Public School

The Frank Public School does not focus solely on academic skills but provides holistic program of cocurricular activities such as Dance, Taekwondo, Yoga, Abacus, Mental Math, Music and Sports integrated in the Curriculum. At Frank Public School students are trained by professional coaches from a young age. Frank Public School students have won laurels in district, state and national competitions.

Arts, Dramatics and Music are also a part of our school curriculum. Students are encouraged to develop their talents and demonstrate them during many school and festival celebrations, organized in the course of the academic year.

Sports, Games and Physical education are an important aspect of school life. A variety of age-related recreational and competitive sports are offered both during and outside Physical Education classes.

The Annual Sports Day held mid-year and the Annual School Day marking the end of the school year are occasions that highlight both academic and co-curricular excellence.

Interhouse competitions are regular for sports & curricular activities like Debates, Quizes, Imprompto speeches etc.
